Circumalpine Events and Correlations during the Late Pleistocene

## 1<sup>st</sup> Workshop: The LGM in the Alps

Chronology, extent of glaciers, palaeovegetation and equilibrium line altitude

Udine, 5-7 December 2012,  
Department of Chemistry,  
Physics and Environment  
Via Cottonificio, 114

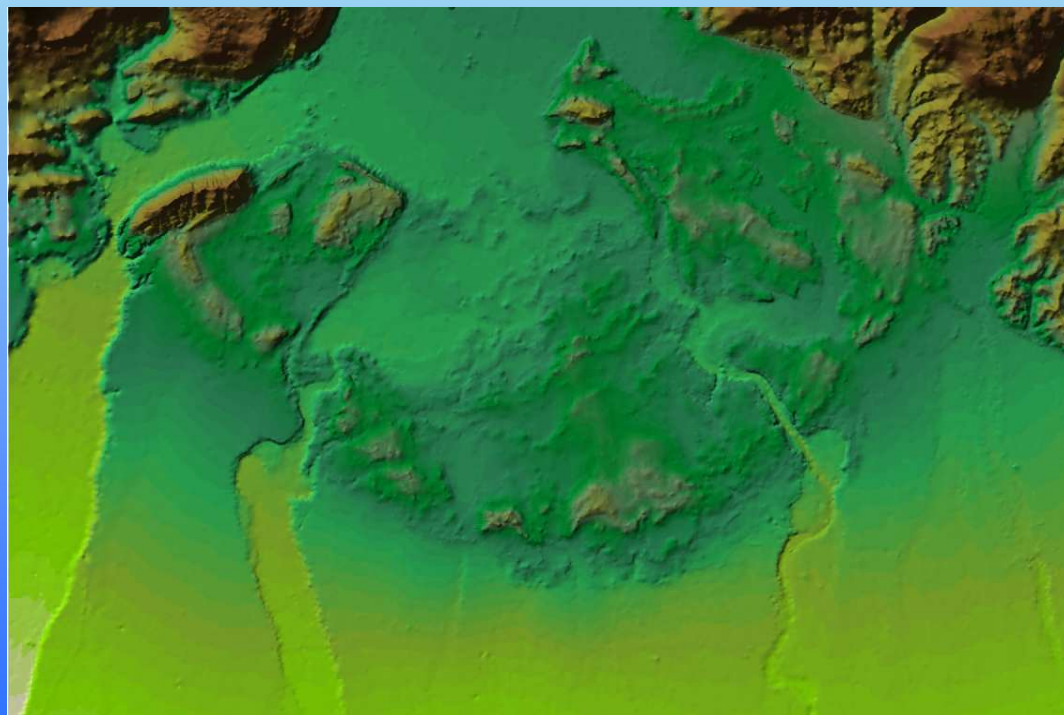

Organisers:

G. Monegato (CNR-IGG, Italy)

F. Preusser (Univ. of Stockholm, Sweden)

C. Ravazzi (CNR-IDPA, Italy)

C. Spötl (Univ. of Innsbruck, Austria)

An **INQUA TERPRO** Commission project

Circumalpine Events and Correlations in the Late Pleistocene

## Programme

**December 5<sup>th</sup>:** Arrival at the University of Udine in the late afternoon, inspection of the Azzano X core, discussion of the long succession that ends with the LGM distal outwash deposits of the Tagliamento system.

**December 6<sup>th</sup>:** Field trip to the upper Piedmont plain and Tagliamento end moraine system. Discussion of the stratigraphy and chronology of the last glaciation. Short plenary discussion session at the University of Udine in the afternoon.

**December 7<sup>th</sup>:** Field trip to the outlet of the Isonzo/Soca River, discussion of the chronology and palaeovegetational records. Transfer to train station or airport in the late afternoon.

## Confirmed participants:

Miloš Bavec, Jürgen Reitner,  
Susan Ivy-Ochs, Franco Gianotti,  
Alessandro Fontana, Irka Hajdas,  
Alessandro Maria Michetti, Paolo  
Mozzi, Giancarlo Scardia,  
Roberta Pini.

## Fee: 50 €

This covers the logistic costs and the field guidebook

## Circumalpine Events and Correlations in the Late Pleistocene

This workshop is supported by INQUA. Grants for students, early-career scientists (less than ten years after their PhD) and scientists from low-GDP country are available.

Grant applicants are requested to submit a half-page CV and a budget plan to [g.monegato@csg.to.cnr.it](mailto:g.monegato@csg.to.cnr.it)

The aim of this first workshop is to discuss the LGM in the Alps on field trips to important sites in the Tagliamento end moraine system and the Friulian Plain.

The participants are requested to submit a few key research questions concerning the theme of the workshop to [g.monegato@csg.to.cnr.it](mailto:g.monegato@csg.to.cnr.it) (not later than the **5<sup>th</sup> November**). This set of questions will be used to guide the field discussion and the short plenary session at the end of the second day.
